

HTC-1462T Track Tub Grinder

INDUSTRIAL GRINDERS

THIS TRACK-MOUNTED GRINDER WITH THE PRODUCTION CAPABILITIES OF A HOGZILLA HC SERIES IS AN AGGRESSIVE PRODUCER WITH MAXIMIZED TRANSPORTABILITY. THIS MONSTER GRINDER IS ENGINEERED FOR PERFORMANCE, BUILT FOR RELIABILITY, AND PROVEN ON THE TOUGHEST JOBS.

The HTC-1462T is the top choice for producers that require high production and simplified transport. By way of engineering the powertrain and aggressive hammermill of our HC Series grinders into a track mounted chassis, amazing production from an easily transportable Track Mounted Monster Grinder is achieved.

The standard 860 HP Cat engine powers the hammermill while providing the efficiency and multiplied torque from the grinding industry's only true torque converter mill drive system. The hydrostatic tracks reduce the amount of support equipment and manpower required to move the grinder while offering the convenience of wireless remote control navigation through difficult job site conditions.

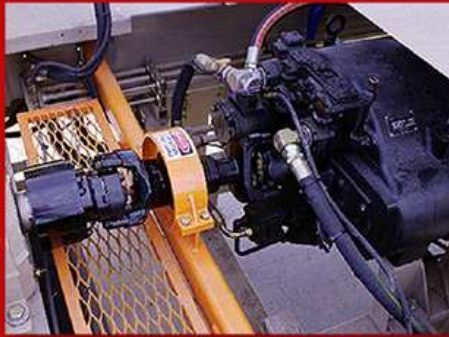

CAT 325EL
TRACKS

TORQUE CONVERTER DRIVE

When the load on the hammermill increases, the hydraulic fluid is automatically re-routed against the turbine blades, adding additional reaction torque. The engine is protected by the torque converter fluid absorbing shock loads and torsional vibrations from the hammermill, assuring longer engine life. No other drive offers all of the benefits that a true torque converter provides.

Production Rates (tons per hour)
 Yardwaste - 100-150
 Stumps & Logs - 50-100
 Pallets/Construction Waste - 35-120

HTC-1462T SPECIFICATIONS

Horsepower	CAT 860(Standard)
Torque Converter (Twin Disc)	1200HP Rated
Hammer-Swing	31"
Feed Opening	30.5" x 62"
Screen Area	3813 sq. in.
Screen Thickness	1"
Hammer Weight	80 lbs.
Hammer Number	24 - 48
Rod Diameter	2"
Tub Top Width	14'
Belt or Augers	42" or 3 ea. 12" Augers
Elevator	42" x 24'
Trans. Width	11' - 11"
Trans. Length	45'
Total Weight (approx.)	92,000 lbs.

Specifications subject to change without notice. As improvements are made, actual product offered for sale may vary in design.
