HogZilla Industrial Grinders

The Heavyweight of Waste Reduction

WTC-1354T MODEL

A Hydraulic Clutch or Hydrodynamic Coupling transfers power from the engine to the hammer mill. The drive system protects the engine from hammer mill shock. A heavy duty driveshaft couples the fluid coupling to the hammer mill. The end user will benefit, having more economic operation of his machinery, less down time, easy installation and maintenance.

Standard Equipment

Hydraulic PTO
Radio Remote Control
Radiator Precleaner Enclosure
Hydraulic Tilting Engine Enclosure
Vandalism Lock Package
Lockable Tool Boxes

Optional Equipment

Track Drive
Torque Converter
North Shore Loader or
Prentice 180E Loader
